Proposals and References

Proposal No. 1: Appropriation of Retained Earnings

The Company considers the return of profits to shareholders as being an important management issue. The Company aims to enhance shareholder value over the long term through continuous, advanced research and development and innovative capital investment, which is necessary for future growth. The Company's basic policy is to maintain a medium- and long-term dividend payout ratio of 30% to the net income attributable to owners of parent and to distribute surplus twice a year as an interim dividend and a year-end dividend, by fully taking into consideration future earnings trends and its financial position so as to keep a balance between enhancing shareholder value and returning profits to shareholders.

Taking into consideration the strategic investment necessary to improve corporate value, earnings trends, financial position, and so forth, in accordance with the said policy, the year-end dividend will amount to ¥7 per ordinary share for a total distribution of ¥11,694,034,296. As a result, annual dividends will be ¥12 per share, including interim dividends.

In addition, the Company's year-end dividend distribution is June 27, 2016.

Type of dividend property	Cash
Dividend per share	7 yen
Total dividend	11,694,034,296 yen
Date on which the dividends from surplus will take effect	June 27, 2016

Proposal No. 2: Election of Twelve Directors

The term of office of all twelve Directors will expire at the conclusion of this Ordinary General Meeting of Shareholders. Accordingly, we propose to elect twelve Directors (nine Directors to be reappointed (including an Outside Director) and three Directors to be newly appointed (including an Outside Director)) to establish corporate governance at a higher level and further improve the Company's enterprise value. Candidates for Directors are elected by the Board of Directors in accordance with "Qualifications Expected of Directors," which is described on page 10. The Company has obtained a report to the effect that this election is appropriate from the Nomination Advisory Committee, which consists mainly of independent outside officers.

The candidates for Director are as follows:

Business Report

(April 1, 2015 - March 31, 2016)

1. Overview of the Company Group

(1) Business Progress and Results

(i) General Conditions

The global economy continued to grow moderately especially in developed countries thanks to the U.S. economic recovery. Meanwhile, close attention must be continuously paid to the U.S. movement toward monetary policy normalization, the European debt issue, the fluctuation in oil prices, and the economic slowdown of emerging countries and resource-rich countries.

The Japanese economy remained stagnant due to the effect of a worsening external environment and so forth. It is expected to continue seeing mild growth owing to the steady improvement in income and employment environment. Meanwhile, there is a concern about the business downturn especially in exporting companies, and this is causing a decline in business confidence because of the sharp appreciation of the yen since the beginning of the year.

Amid this operating environment, the overall orders received by the KHI Group for the fiscal year under review amounted to ¥1,693.6 billion, 1% lower than the previous fiscal year. This was because of decreases in the Ship & Offshore Structure segment, while orders increased in the Aerospace segment and the Gas Turbine & Machinery segment. Net sales were ¥1,541.0 billion, 4% higher than the previous fiscal year due to increased sales in some segments including the Aerospace segment and the Rolling Stock segment.

In terms of profit, the Aerospace segment reported a profit increase, resulting in an operating income of ¥95.9 billion, 10% higher than the previous fiscal year. Recurring profit was ¥93.2 billion, 11% higher than the previous fiscal year. However, net income attributable to owners of parent was ¥46.0 billion, 11% lower than the previous fiscal year, mainly because of a loss on overseas business in extraordinary losses.

(ii) Operating conditions by business segment

Ship & Offshore Structure segment

The Ship & Offshore Structure segment received orders amounting to ¥98.3 billion, a decrease by ¥80.8 billion from the previous fiscal year in which orders for submarines from Japan's Ministry of Defense and deep submergence rescue vehicles were received.

Net sales were ¥94.8 billion, an increase of ¥4.5 billion from the previous fiscal year. This was attributable to an increase in the construction of LPG carriers.

Operating income decreased ¥10.6 billion from the previous fiscal year, resulting in an operating loss of ¥7.9 billion partly due to reversal of a provision for losses on construction contracts.

Rolling Stock segment

The Rolling Stock segment saw orders received at ¥132.1 billion, remaining at the same level as in the previous fiscal year as there was no significant change for both domestic and overseas customers.

Net sales increased ¥25.1 billion from the previous fiscal year to ¥146.6 billion due to increased sales for overseas countries including Singapore and Taiwan.

Operating income increased ¥3.2 billion from the previous fiscal year to ¥9.2 billion mainly due to increased sales.

Aerospace segment

At the Aerospace segment, orders received were ¥464.2 billion, an increase of ¥107.2 billion from the previous fiscal year, mainly due to an increase in orders from Japan's Ministry of Defense.

Net sales increased ¥26.7 billion from the previous fiscal year to ¥351.8 billion. This was partly because of an increase in sales to Japan's Ministry of Defense and the high level of component parts for commercial airplanes as well as the impact of the depreciation of the yen.

Operating income increased ¥9.3 billion from the previous fiscal year to ¥45.6 billion, mainly due to increased sales.

Gas Turbine & Machinery segment

At the Gas Turbine & Machinery segment, orders received were ¥288.9 billion, an increase of ¥53.1 billion from the previous fiscal year. This was mainly attributable to an increase in orders for such products as component parts of commercial aircraft jet engines and gas engines.

Net sales increased ¥17.6 billion from the previous fiscal year to ¥236.4 billion, mainly due to an increase in sales of component parts of commercial aircraft jet engines.

Operating income increased ¥5.6 billion from the previous fiscal year to ¥16.9 billion partly due to increased sales.

Plant & Infrastructure segment

In the Plant & Infrastructure segment, orders received were ¥138.7 billion, a decrease of ¥64.6 billion from the previous fiscal year in which large orders were received for plants from overseas customers.

Net sales increased ¥14.5 billion from the previous fiscal year to ¥135.6 billion, mainly due to increased sales of large-scale plants to overseas customers.

Operating income increased ¥1.9 billion from the previous fiscal year to ¥8.5 billion partly due to increased sales.

Motorcycle & Engine segment

Net sales of the Motorcycle & Engine segment increased ¥4.3 billion from the previous fiscal year to ¥333.5 billion. This was attributable to increased sales of motorcycles and utility vehicles in developed countries, while sales of motorcycles in Indonesia and other emerging markets decreased.

Operating income increased ¥0.8 billion from the previous fiscal year to ¥15.7 billion partly due to increased sales.

(Note) The net sales figure for the Motorcycle & Engine segment is also used as the figure for orders received.

Precision Machinery segment

In the Precision Machinery segment, orders received were ¥133.1 billion, a decrease of ¥3.0 billion from the previous fiscal year due to decreased orders for hydraulic components.

Net sales decreased ¥2.6 billion from the previous fiscal year to ¥133.1 billion, mainly due to decreased sales of hydraulic components.

Operating income decreased ¥2.3 billion from the previous fiscal year to ¥8.5 billion partly due to decreased sales and profitability of hydraulic components.

Others segment

In the Others segment, net sales decreased ¥35.4 billion from the previous fiscal year to ¥108.8 billion partly because of the transfer of the construction machinery business.

Operating income decreased ¥1.0 billion from the previous fiscal year to ¥2.8 billion partly due to the transfer of the construction machinery business.

(2) Capital Investments, etc.

In the KHI Group, capital investments were made predominantly for the development of facilities to increase the production capacity in the Aerospace segment, and the development of facilities to handle new models and products and the streamlining of production in the Gas Turbine & Machinery segment and the Motorcycle & Engine segment. As a result, the KHI Group spent a total of ¥76.3 billion (including spending on intangible assets) on capital investments in the consolidated fiscal year under review. The investments were covered by internally generated funds and borrowed money.

Details of major investments in the respective segments are as follows:

Unit: 100 million yen

Segment	Major investments	Investment amounts in the consolidated fiscal year under review
Ship & Offshore Structure	Facilities for streamlining ship construction, etc.	26
Rolling Stock	Facilities for streamlining rolling stock production, etc.	25
Aerospace	Facilities for increasing aircraft production capacity, etc.	287
Gas Turbine & Machinery	Facilities for handling new models and products of jet engines, etc. and facilities for streamlining production, etc.	79
Plant & Infrastructure	Facilities for streamlining production of industrial machinery, etc.	14
Motorcycle & Engine	Facilities for handling new models and products of motorcycles and facilities for streamlining production, etc.	150
Precision Machinery	Facilities for streamlining production of hydraulic components and facilities for increasing industrial robot production capacity, etc.	81
Others segment	Facilities for research and development and welfare facilities, etc.	98
Total		763

(3) Financing

Funds of ¥19.6 billion from long-term debt, ¥20.0 billion from domestic unsecured straight bonds and short-term borrowings and other funds from various sources were raised in the current consolidated fiscal year. The funds were allocated to such items as long-term loan repayments, capital investments and working capital.

(4) Assignment of businesses, absorption-type splits and incorporation-type corporate splits

Not applicable.

(5) Transfer of business from other companies

Not applicable.

(6) Succession of rights and obligations pertaining to the business of another juridical person, etc., due to absorption-type merger or absorption-type company split

Not applicable.

(7) Acquisition or disposal of another company's stocks or other holdings, or share options, etc.

Previously, KCM Corporation was a subsidiary of the Company and 66% of its shares were held by the Company. Effective October 1, 2015, the Company transferred the shares to Hitachi Construction Machinery Co., Ltd. In addition, effective the said date, the Company transferred the businesses of KCMJ Corporation, which was a wholly-owned subsidiary of KCM Corporation, to Hitachi Construction Machinery Japan Co., Ltd.

(8) Corporate Management Strategies in the Medium to Long Term and Issues to be Addressed

The business environment surrounding the KHI Group is becoming tougher due to greater uncertainties about the future global economy and a shift toward the appreciation of the yen. Under

such circumstances, KHI has formulated a new medium-term business plan for fiscal years 2016 to 2018 (hereinafter, "MTBP2016") to attain the ideal model (KHI's vision, quantitative image about the future in the next ten years).

The basic policy in MTBP2016 is to further deepen ROIC Management. We seek to improve our enterprise value for the future by enhancing core competence (source of profitability and competitive superiority). We will make aggressive investments in growing areas (air transportation, robots, energy) and differentiate ourselves in terms of technologies with an eye toward future new products and businesses by increasing synergies with the combined use of our internal technologies. Furthermore, we will focus on new service businesses by utilizing our information and communications technology.

(i) Improvement of enterprise value by further deepening ROIC Management

By asking ourselves "what and which actions will lead to improve our enterprise value?" we can determine indicators that help us focus on links with daily operations. In this way, we will get a better understanding of KHI's employees, in accordance with the business characteristics of the respective segments. In order to satisfy those indicators, we will carry out ROIC Management in which all the Officers and employees participate. We will also utilize those indicators for risk management, thereby leading to a further improved enterprise value.

(ii) Cash flow-oriented management

In order to improve our enterprise value, we aim to boost our earnings power and create free cash flows, while steadily making developments and capital investments toward future growth. For FY2016, we have outlined the challenge of acquiring cash flows especially from operating activities. We will implement concrete policies to enhance the efficiency of working capital, such as by improving conditions on money reception and reduction of assets by enhancing efficiency of our supply chain.

(iii) Thorough risk management

In the short term, we will understand the impact of fluctuations in exchange rates and economic conditions in a timely manner to conduct efficient risk management. In the medium to long term, we will make such efforts as reviewing prices and production bases and developing products with high added value that are less prone to being affected by the external environment, as well as improving capital adequacy. We will also monitor balance sheets and cash flows for major projects to ensure thorough risk management after the projects start.

(iv) Enhancement of corporate governance system and emphasis on engagement

Based on the intent of the Corporate Governance Code and Stewardship Code, we will continue to review our corporate governance system that is appropriate for KHI, striving to improve enterprise value through continuous high-quality dialogue with capital markets.

(Note) 1. Corporate Governance Code: Principles for companies to establish a structure to make decisions in a transparent, fair, speedy and decisive manner from the standpoint of different parties such as shareholders and customers, employees and local communities

2. Stewardship Code: Principles for institutional investors to be responsible as a trustee to enhance the company's medium- to long-term growth through dialogue

(v) Human resource development and respect for diversity

We concentrate our energy on the globalization of human resources, and on such measures as securing, developing and strengthening human resources who have substantial knowledge and experience, while handing down engineering and skills to the young generation. We also encourage more women to pursue a career and provide support for child-rearing, etc. in order to improve our employees' work-life balance, and secure a comfortable workplace and employment of people with disabilities through establishing a special subsidiary to develop workplaces in which diversity is respected.

The initiatives to be undertaken by each business segment are as follows.

- i) Ship & Offshore Structure:** Optimize profitability through integrated operations with Sakaide Works, NACKS and DACKS, perform steady business operations in Kobe Works including submarine-related operations, and scale down the offshore vessel business
- ii) Rolling Stock:** Rolling Stock: Enhance competitiveness through technologies and products that meet customer needs including cutting-edge technological development and new rolling stock, further enhance system integration capability through strengthening of human resources, expand stock-type business for maintenance and remodeling, and construct a global optimal business execution system including adoption of overseas production and procurement and effective use of partnerships
- iii) Aerospace:** Establish a mass production system and develop derivative products for P-1 patrol aircraft and C-2 transport aircraft including repair and component support, boost production of component parts for the Boeing 787 and respond to needs for derivative products, and develop and start mass-producing 777-X
- iv) Gas Turbine & Machinery:** Develop the energy solution business based on high-efficiency industrial gas turbines and gas engines, promote overseas operations, and promote the development of new models of jet engines for commercial aircraft and respond to needs for mass-production of these models
- v) Plant & Infrastructure:** Enhance competitiveness through sophistication of existing products and achieve early commercialization of new products and technologies, expand the overseas business to emerging countries and resource-rich countries through strengthening of overseas partnerships, further enhance engineering capability by strengthening human resources development, and fully complete the large projects
- vi) Motorcycle & Engine:** Continue to launch strong, attractive models as expected with the "Kawasaki" brand, achieve the development of strong brands that are rooted in customer value, further improve our presence in the markets of developed countries which are showing signs of recovery, further boost the brand power and develop new markets in emerging countries, and thoroughly enhance the efficiency of consolidation-based management
- vii) Precision Machinery:** Maintain and increase a high market share in the area of hydraulic excavation systems while expanding sales of other construction/agricultural machinery products, enhance our ability to make system proposals and develop and expand overseas production systems in the robot business, and make continuous efforts toward the future in such new fields as the medical robot business

(Notes) 1. * means a Representative Director.

- Directors Yoshihiko Morita and Hideki Fukuda and Corporate Auditors Nobuyuki Fujikake and Takashi Torizumi are Independent Officers stipulated by the Tokyo Stock Exchange, Inc. and Nagoya Stock Exchange, Inc.
- Mr. Toshikazu Hayashi, formerly Senior Vice President of KHI, has been appointed as Outside Corporate Auditor of Kawasaki Kisen Kaisha, Ltd. ("Kawasaki Kisen"), to which Mr. Takashi Torizumi belonged. Kawasaki Kisen owns a total of 1.03% of the outstanding shares in KHI. Meanwhile, KHI owns a total of 3.50% of the voting rights of the outstanding shares in Kawasaki Kisen, which are held by Trust & Custody Services Bank, Ltd. (Kawasaki Heavy Industries, Ltd. retirement benefit trust account re-entrusted by Mizuho Trust and Banking Co., Ltd.). However, Kawasaki Kisen is not a company of KHI Group. In addition, although Kawasaki Kisen is a business partner of KHI mainly in ship-related transactions, the annual average transactions between the Kawasaki Kisen Group and KHI Group for the most recent five fiscal years account for less than 2% of the total annual average sales each for the Kawasaki Kisen Group and KHI Group over the corresponding period. Consequently, we have determined that there is no issue as regards to the independence of Mr. Takashi Torizumi and he is therefore suitable as an independent officer.
- Kyohei Matsuoka, Hiroshi Takata, Minoru Makimura, Shigehiko Kiyama, Directors, and Michio Oka, Corporate Auditor, resigned during the relevant business year with the conclusion of the 192nd Ordinary General Meeting of Shareholders.
- As of April 1, 2016, the Director positions have changed:
Eiji Inoue, formerly Senior Vice President (Representative Director), has become Director,

and Yoshinori Kanehana and Munenori Ishikawa, formerly Senior Vice President (Representative Director), have become Senior Executive Vice President (Representative Director).

6. Yuji Murakami, Corporate Auditor, who has many years of experience with administration and accounting operations at our company, has substantial knowledge about finance and accounting matters.

(i) Compensation, etc. as an accounting auditor for the fiscal year under review

¥180,300 thousand

(ii) Cash and Other Profits Payable by the Company or its Subsidiaries to the Accounting Auditors

¥226,380 thousand

(Notes) 1. The Board of Corporate Auditors verifies the reasonableness of audit plans, audit performance and progress, and estimate and calculation of compensation regarding its Accounting Auditor in accordance with the "Practical Guidelines for Cooperation with Accounting Auditors" issued by Japan Audit & Supervisory Board Members Association. Following such verification, the Board of Corporate Auditors determines whether it agrees to the amount of compensation and other related costs payable to the Accounting Auditor.

2. Under the audit agreement between the Company and its Accounting Auditor, compensation for audits pursuant to the Companies Act and audits pursuant to the Financial Instruments and Exchange Act are not separated, and they cannot be separated in a practical way. Consequently, the above amounts reflect total compensation.

3. Of the Company's material subsidiaries, some overseas subsidiaries have been audited by certified public accountants or audit corporations (including those who possess equivalent qualifications in foreign countries) other than the Company's Accounting Auditor.

(3) Details of Non-audit Services

Procedures relating to the confirmation of balances of certain accounts submitted to the authorities concerned to proceed liquidation of receivables and so forth.

(4) Policy Regarding Determination of Termination or Nonrenewal of Appointment of Accounting Auditors

The Board of Corporate Auditors determines matters related to the termination or nonrenewal of appointment of Accounting Auditors by fully taking into consideration the independence ordered by laws and standards etc., and reliability and other conditions regarding the performance of duties of Accounting Auditors.

When the Board of Corporate Auditors recognizes that the Accounting Auditor faces a difficulty in executing his/her duties or deems it necessary to do so for other reasons, it shall prepare and

submit a proposal of termination or nonrenewal of appointment of the Accounting Auditor at a General Meeting of Shareholders. Moreover, when it judges that the Accounting Auditor has performed an activity falling under any of the items set forth in Article 340, Paragraph 1 of the Companies Act, it shall consider whether to terminate the Accounting Auditor's appointment based on the facts. As a result, if the termination is deemed to be reasonable, it shall terminate the Accounting Auditor's appointment with the consent of all the Corporate Auditors. In this case, a Corporate Auditor, who is selected by the Board of Corporate Auditors, shall report the said termination and the reason therefor at the first General Meeting of Shareholders convened after the termination.

When the Board of Directors recognizes that the Accounting Auditor faces a difficulty in executing his/her duties or deems it necessary to do so for other reasons, it shall request the Board of Corporate Auditors to add a proposal of termination or nonrenewal of appointment of the Accounting Auditor at a General Meeting of Shareholders. The Board of Corporate Auditors shall then judge the appropriateness of said action and determine the contents of the proposal which is submitted to the General Meeting of Shareholders.

6. System to ensure that Directors' execution of duties complies with laws and the Articles of Incorporation, other systems to ensure proper execution of business and overview of operation status of such systems

At the Board of Directors Meeting of May 24, 2006, the Company made a resolution regarding the basic policies on the establishment of internal control systems pursuant to the Companies Act and confirmed the status of established internal control systems. Henceforth, whenever there are organizational changes or changes to internal regulations, resolutions are made at Board of Directors Meetings with regard to the revision of the basic policies. The details of resolutions regarding the basic policies as of the end of the fiscal year under review and an overview of the operation status of internal control systems for the fiscal year under review are as follows:

I. Basic policy for developing a system for internal controls

The KHI Group develops and maintains systems for internal controls to establish systems to ensure formation of proper organizational structures, development of company rules and regulations, dissemination of information and proper execution of operations. KHI's management philosophy is indicated in the Group Mission (missions and roles which must be carried out) "Kawasaki, working as one for the good of the planet" (Enriching lifestyles and helping safeguard the environment: Global Kawasaki), "Kawasaki Value," the "The Kawasaki Group Management Principles" and "The Kawasaki Group Code of Conduct." KHI strives to improve its internal controls by constantly reviewing them, and in doing so improves the efficiency and lawfulness of company systems which contribute to the Group's sound and sustained growth.

More specifically, a resolution was made at the Board of Directors Meeting with respect to the Company's efforts to establish the following internal control systems and to streamline, maintain, and improve them based on the above basic policies. Going forward, the Company will continue to review the details of the said resolution as necessary, taking into account such factors as changes in the Company's operating environment.

1. Necessary systems to ensure proper execution of business of the Company

(1) Systems to ensure that execution of duties by the Company's Directors and employees are compliant with laws and the Articles of Incorporation

1) We are thoroughgoing in ensuring compliance with laws and the Articles of Incorporation and other KHI regulations and policies, and bind KHI's officers (directors and corporate auditors are collectively called "Officers") and employees: "put an ethics into practice as business person," "respect individuals and individual rights and prohibit discrimination," "promote protection of the environment," "comply with laws and social rules," and "use proper accounting practices and ensure reliability of financial reports" (hereinafter, "Fundamental Principles of Corporate Ethics") as stipulated in KHI Code of Corporate Ethics.

2) We establish a system to promote measures, with President as the chief executive of internal controls and General Manager of each division as the manager in charge of internal controls, and deliberate and make decisions on policies and measures at the Management

Committee and manage the internal control systems in a unified way. We do so based on the roles and responsibilities given to Officers and employees, in order to ensure the appropriateness of business operations by achieving objectives such as effective and efficient business operations, reliable financial reporting, compliance with laws, and safeguarding of assets.

- 3) We deliberate and make decisions on policies and measures, under the governance of President, for the Company-wide CSR Committee and the CSR Committee for Business Divisions (consisting of Officers and other employees) to comply with the "Fundamental Principles of Corporate Ethics" and to take thoroughgoing compliance initiatives for the KHI Group (which means the corporate group consisting of the Company and its subsidiaries). We continue to improve understanding and awareness of compliance through ongoing education and training activities for various types of legal compliance and also monitor operational status.
 - 4) We work to enhance compliance systems by establishing the internal whistleblower system to report information regarding compliance breaches.
 - 5) Executive Officers who are delegated to execute business operations within an appropriate scope are appointed at Board of Directors Meetings. And by appointing outside directors (independent officers stipulated in the Regulations of the Tokyo Stock Exchange) who are independent from the execution of business operations and are not likely to have any conflict of interest with any general shareholder, the Company enhances the supervisory and monitoring functions of the Board of Directors for overall management. In addition, by appointing outside auditors who are not likely to have any conflict of interest with any general shareholder (independent officers stipulated in the Regulations of the Tokyo Stock Exchange), the Company ensures the objectivity and neutrality of the management monitoring function, and enhances the monitoring function.
 - 6) The Internal Audit Department establishes internal controls over KHI's business audits and financial reporting, and carries out evaluation/assessment and reporting thereof to ensure the execution of duties and the reliability of financial reporting.
- (2) Systems for storage and management of information related to execution of duties by the Company's Directors
- 1) Information pertaining to execution of duties by the Company's Directors (meeting minutes, decision making records and appurtenant materials, account books, account invoices and other information) shall be appropriately stored and managed in accordance with applicable internal regulations. The information shall be made accessible at any time to Officers and employees nominated thereby.
 - 2) Confidential information and personal information shall be appropriately stored and managed in accordance with internal regulations and enforcement thereof shall be ensured through such measures as business audits.
- (3) Systems for management of risk of loss of the Company
- 1) With President as the chief executive of risk management and General Manager of each division as manager in charge of risk management, we grasp the assumed risk in detail, and establish a risk management system, which is designed to avoid or minimize risk or losses caused by such risk.
 - 2) With respect to risks pertaining to management strategies, risk analysis and consideration of countermeasures shall be conducted in advance by the concerned divisions in accordance with applicable internal regulations. Then, deliberations and decision making regarding those risks shall be carried out at Board of Directors Meetings. In particular, we implement risk management individually for major projects that have a significant impact on business operations.
 - 3) As a measure to be taken when a risk becomes evident, we set forth codes of conduct in the event of emergencies, and also appoint persons in charge of crisis management at each place of business to establish the system, which is designed to minimize losses.
 - 4) When a material risk becomes evident, reports are immediately given to President, who is the chief executive of risk management, in accordance with the reporting route specified in advance.
 - 5) In particular, in anticipation of the occurrence of disasters, including large-scale earthquakes and pandemic diseases, we predetermine important operations to which

priority should be given to ensure the continuation or recovery of the operations in order to minimize the impact on KHI's business. We also formulate a business continuity plan to shorten the length of time until recovery.

- (4) Systems to ensure efficient execution of duties by the Company's Directors
 - 1) Based on the KHI Group's role and objectives as articulated in the Kawasaki Group Mission Statement, we share final goals for the future by setting forth a long-term vision for the whole group and each business division.
 - 2) To attain the goals set forth in the long-term vision, we have formulated specific action plans, including the Medium-Term Business Plan and Short-Term Business Plan, and have determined goals for each organization, Officer and employee. Furthermore, by conducting regular reviews of these respective plans and goals, we aim to secure a system that enables more appropriate and efficient execution of business operations.
 - 3) We have stipulated matters such as division of roles and approval authority in internal regulations. We have also appointed Executive Officers based on a resolution passed at Board of Directors Meetings to clarify the Systems for Execution of Business Operations. As a result of establishing these systems, we aim to efficiently execute business operations in each business and function area.
 - 4) We have established the Management Committee, which acts as a deliberative organ to support the Board of Directors Meetings' resolutions and President's decision making, to ensure efficient execution of duties by Board Members through discussions at Management Committees. Furthermore, we hold meetings of Executive Officers Committee, which consists of all Executive Officers, to ensure familiarity and a common understanding of management strategies and plans.
 - 5) According to the in-house company system, each business division makes decisions on its own under delegated authority and responsibility, and executes flexible business operations to adapt to changes in the environment. We have also established the Company Management Committee in each Company, and it is led by the Company President who assumes the ultimate responsibility for execution of duties of company's business operations.

2. Necessary systems to ensure proper execution of business of KHI Group Companies

We ensure proper execution of business of the KHI Group through efforts to establish the following systems according to business contents, size, region and significance of each subsidiary and affiliate (hereinafter, "Group Companies").

- (1) Systems to ensure that execution of duties by Directors and employees of Group Companies are compliant with laws and the Articles of Incorporation
 - 1) The Company governs internal controls of Group Companies from the perspective of the parent company and establishes a system to ensure the appropriateness of business operations. It does so by achieving objectives regarding matters such as the effectiveness and efficiency of business operations, reliability of financial reporting, compliance with laws and safeguarding of assets as a whole group.
 - 2) The Company establishes a system to have the Company-wide CSR Committee deliberate strategies and policies and measures concerning the "Fundamental Principles of Corporate Ethics" and compliance as the entire KHI Group, and check operational status.
 - 3) The Company implements controls as shareholders of Group Companies through the execution of voting rights at the General Meeting of Shareholders, and also carries out management supervision and monitoring over the operation thereof by dispatching non-full-time Directors or non-full-time Corporate Auditors, or both (collectively referred to as "Non-Full-Time Officer"), to Group Companies, on an as-needed basis. In addition, we secure appropriate Group business management systems by establishing a department which presides over subsidiaries' operation.
 - 4) The Auditing Department, which presides over the Group's internal audits, ensures the appropriateness of operations and reliability of financial reports through business audits and assessment of internal controls over financial reporting at Group Companies.
- (2) Systems with regard to reporting to the Company on execution of duties by Directors and employees of Group Companies

- 1) The Company receives reports regarding the status of execution of duties by Directors of Group Companies through a Non-Full-Time Officer who is dispatched thereto.
 - 2) Group Companies regularly report on the status of business operation as a management report and have discussions in advance with the relevant department of the Company with regard to important matters subject to decision-making on corporate management in accordance with applicable internal regulations.
- (3) Regulations for management of risk of loss of Group Companies and other systems
- 1) The Company promotes group-wide risk management, striving to prevent or minimize risk or losses caused by such risk.
 - 2) As a measure to be taken when a risk becomes evident at Group Companies, the Company instructs Group Companies to formulate crisis handling measures and policies to establish the crisis management system.
 - 3) When a material risk becomes evident, reports are immediately given to the Company, in accordance with the reporting route specified in advance.
- (4) Systems to ensure efficient execution of duties by Directors of Group Companies
- 1) With respect to the management at each Group Company, while respecting the autonomy thereof, the Company establishes a system in which execution of duties is ensured in a fair and efficient manner by sharing the basic philosophy and vision indicated in the Kawasaki Group Mission Statement, long-term vision, the Medium-Term Business Plan, and so forth, and clarifying group-wide final goals.
 - 2) The Company instructs Group Companies to establish Approval Regulations to ensure efficient execution of duties.
3. Necessary matters for the Company's Corporate Auditors to execute duties
- (1) Policies regarding employees in cases where the Company's Corporate Auditor requests appointment of employees to assist with his/her duties
We allocate the required staff according to the Corporate Auditors' requests.
 - (2) Policies regarding independence of employees who assist with the duties of the Company's Corporate Auditors from the Company's Directors and matters regarding ensuring efficiency in directions given to employees who assist with the duties of the Company's Corporate Auditors
The employee who assists with the duties of the Corporate Auditor shall follow the Corporate Auditor's directions and orders. For personal transfer, personnel performance evaluation and disciplinary punishment, prior consent of the Board of Corporate Auditors is required.
 - (3) Systems for the Company's Directors and employees to report to the Company's Corporate Auditors and systems for those who receive reports from Directors and employees of Group Companies to give reports to the Company's Corporate Auditors
 - 1) The Company's Corporate Auditors attend Board of Directors Meetings, the Management Committee, Executive Officers Committee and company-wide meetings, including Company-wide CSR Committees and Company-wide Risk Management Committees. At these meetings, the Company's Directors and employees shall provide the Company's Board of Corporate Auditors with reports concerning important matters about group management and business operations, including matters regarding compliance, risk management and internal controls, and the status of execution of duties.
 - 2) The Company's Directors and employees shall immediately report to the Company's Board of Corporate Auditors when discovering that there is a risk of the KHI Group suffering significant damage.
 - 3) Directors and employees of Group Companies shall immediately report to the relevant department of the Company when discovering that there is a risk of the KHI Group suffering significant damage. Upon receiving reports, the said department shall report the details to the Company's Board of Corporate Auditors.
 - 4) The Company's employees shall, in accordance with applicable internal regulations, report to the Company's Board of Corporate Auditors regarding the execution of business operations of the KHI Group by circulation of internal memos.
 - 5) The Company's Auditing Department and Accounting Auditors from time to time report to, and exchange information with the Company's Board of Corporate Auditors regarding the status of audits on the KHI Group.

(4) System to ensure that those who give reports described in the preceding Item (3) will not be treated disadvantageously for reason of having made such report

The Company stipulates a provision regarding the prohibition of unfair and unfavorable treatment of those who give reports described in the preceding Item (3). The Company also instructs Group Companies to stipulate a provision of the same contents in their company regulations.

(5) Policies on prepaid expenses for the execution of the duties of the Company's Corporate Auditors, or expenses for procedures for repayment and the execution of other relevant duties, or on debt processing

When the Company's Corporate Auditors request the Company to make prepayment on execution of duties pursuant to the Companies Act, the Company shall promptly proceed with payment of appropriate expenses and debt settlement, except where the expense or debt whose payment is requested is deemed unnecessary to execute their duties.

(6) Other systems to ensure the effective conduct of audits by the Company's Corporate Auditors

1) The Company's Directors and Corporate Auditors regularly hold meetings to ensure mutual understanding, and the Company's Corporate Auditors also attend important meetings such as Board of Directors Meeting and Management Committee meeting, and directly express their opinion regarding execution of duties by the Company's Directors.

2) The Company's Directors and Group Companies' Directors promote collaboration between the Company's Corporate Auditors, the Company's Auditing Department and Group Companies' Corporate Auditors, and cooperate to establish systems which enable greater effectiveness in the conduct of audits.

3) The Company and Group Companies obtain the consent of the Board of Corporate Auditors or approval of the Board of Corporate Auditors with regard to the election of Corporate Auditors and their remuneration, and so forth, in accordance with laws and the Articles of Incorporation.

4) Of Corporate Auditors appointed by the Company, one or more shall have substantial knowledge about finance and accounting.

4. System regarding expulsion of anti-social forces

Because our Group resolutely refuses to comply with any unreasonable demands from anti-social forces, and works to cut off all relations with anti-social forces, we distribute the "Compliance Guidebook" to all Officers and employees. The Guidebook explains the prohibition of "giving favors to anti-social forces" by listing specific examples of prohibited acts. We work to ensure that Officers and employees are thoroughly familiar with the matters contained in the Compliance Guidebook by conducting training, and so forth, and do not merely distribute the guidebook.

Furthermore, with respect to internal systems, we have established a department in the headquarters which is responsible for overseeing handling of expulsion of anti-social forces, established close cooperation with external specialized organizations such as the police force, and in collaboration with the concerned departments, we systematically handle unreasonable requests from anti-social forces.

II. Overview of the operation status of internal control systems

An overview of the operation status of internal control systems for the fiscal year under review is as follows. The said operating status is assessed at the end of every fiscal period and the assessment results are reported to the Board of Directors Meeting.

1. Efforts on internal control systems in general

1) We set forth the "Fundamental Principles of Corporate Ethics" in KHI Code of Corporate Ethics, distribute guidebooks that describe the contents of the principles, and conduct various training programs to ensure that the said principles are thoroughly disseminated.

2) The Company's Audit Department carries out evaluation/assessment of internal controls over business audits and financial reporting for the KHI Group to ensure effectiveness and efficiency of business operations and reliability of financial reporting.

2. Efforts on compliance

- 1) We establish the Company-wide CSR Committee, which is responsible for deliberating and making decisions on policies and measures to promote compliance at a group-wide level and monitoring the compliance status thereof (performed three times during the fiscal period under review). The said committee also plays the leading role in the establishment of related internal regulations, preparation and distribution of the "Compliance Guidebook" (hereinafter, the "Guidebook"), provision of various training programs, and operation of the whistle-blowing system. In addition, we establish the CSR Committee for Business Divisions and therewith implement appropriate measures for each business environment through compliance activities performed by each business division.
- 2) In an effort to eliminate anti-social forces, we distribute the Guidebook to all Officers and employees. The Guidebook lists specific examples of prohibited acts. We work to ensure that Officers and employees are thoroughly familiar with the contents thereof. We also offer training and education to ensure thorough dissemination.

3. Efforts on risk management

- 1) We build a risk management system on a company-wide level based on the Risk Management Regulations. We also prepare a manual to explain the procedures of specific risk management practices and exhaustively grasp the assumed risks on a scale common to the Group to prevent and minimize risk or losses caused by such risk. In addition, we hold Risk Management Committee meetings on an as-needed basis at both the company-wide level and divisional level to report and deliberate on determination of material risks, designation of risks to be addressed, results of risk monitoring and other important matters.
- 2) For major projects that have a significant impact on business operations, a head office division conducts risk assessment and considers risk control measures before accepting orders. Furthermore, upon completion of projects, the said division assesses profitability and conducts causal analysis if the profitability of projects significantly worsens.
In order to respond to drastic changes in the external environment more speedily and properly, we will strive to further strengthen the risk management system by setting "enhancement of thorough risk management" as one of the priority measures of "MTBP2016."
- 3) In anticipation of the occurrence of large-scale disasters and pandemic diseases, we proactively formulate a business continuity plan for each business division, and conduct annual assessment and review thereof. We also establish and build a system to minimize losses in case we suffer damage in disasters.
During the fiscal period under review, we reviewed estimates of damage by disasters in major areas in Japan, performed disaster prevention drills and BCP drills, and conducted safety confirmation drills for all the employees.

4. Efforts to ensure efficient execution of duties

- 1) Based on the company-wide policies and strategies determined with reference to the contents of the Kawasaki Group Mission Statement, which stipulates the KHI Group's role and objectives, we determine the ideal way to be in each business area as well as the medium-term business plan and the short-term business plan to clearly show our final goals. We also strive to share objectives by holding a brief meeting in each business division.
- 2) We articulate division of roles and approval authority to enhance efficiency of execution of duties in each business and function area. We also give various types of guidance to Group Companies to enhance efficiency of execution of duties.
- 3) We strive to form a common understanding among Directors through thorough deliberation of important management policies, management strategies and management issues at Management Committee meetings (held 30 times during the fiscal period under review) to ensure that Directors efficiently execute duties.

5. Efforts on management of Group Companies

- 1) We exert group-wide efforts to work on compliance and risk management and successively develop these systems to overseas Group Companies. In order to ensure further dissemination and familiarization, we will establish and operate the systems according to business contents, size, region and significance of each Group Company.

- 2) We carry out management supervision and monitoring over the operation of Group Companies by dispatching Non-Full-Time Officers to Group Companies to attend meetings of the Board of Directors thereof. We regularly receive reports on the status of business operation from Group Companies and have discussions in advance with the relevant department of the Company with regard to important matters subject to decision-making on corporate management in accordance with applicable internal regulations.
6. Efforts on ensuring appropriateness of audits performed by Corporate Auditors
- 1) We assign two employees who are dedicated to assist with the duties of the Company's Corporate Auditor. For personnel transfer, personnel performance evaluation and disciplinary punishment of these employees, we obtain prior consent of the Board of Corporate Auditors.
 - 2) The Company's Corporate Auditor attends the Company's important meetings. The Company's Directors and employees provide the Company's Board of Corporate Auditors with reports concerning important matters about corporate management and business operations as well as the status of execution of duties through the said meetings, and report to the Company's Board of Corporate Auditors regarding the execution of business operations by circulation of internal memos.
 - 3) We establish regulations that prohibit unfair and unfavorable treatment of those who cooperate with a Corporate Auditor to perform audits and give reports to a Corporate Auditor pursuant to the "Basic Policy for the Establishment of Internal Control System." We also instruct Group Companies to stipulate regulations similar thereto.
 - 4) The Company's Auditing Department and Accounting Auditor regularly hold liaison meetings or discussions with the Company's Corporate Auditor to exchange information and opinions with him/her so as to ensure close communication.
During the fiscal period under review, we held liaison meetings/discussions four times with the Auditing Department and five times with the Accounting Auditor to communicate with the Company's Corporate Auditor.
 - 5) We establish regulations regarding requests for prepaid expenses incurred for the execution of the duties of the Company's Corporate Auditor, and so forth.

Audit Report

(English Translation)

Regarding the performance of duties by the Directors for the 193rd fiscal year from April 1, 2015 to March 31, 2016, the Board of Corporate Auditors hereby submits its audit report, which has been prepared upon careful consideration based on the audit report prepared by each Corporate Auditor.

1. Summary of Auditing Methods by the Corporate Auditors and Board of Corporate Auditors

(1) The Board of Corporate Auditors established auditing policies, allocation of duties, and other relevant matters, and received reports from each Corporate Auditor regarding his audits and results thereof, as well as received reports from the Directors, other relevant personnel, and the Accounting Auditor regarding performance of their duties, and sought explanations as necessary.

(2) Each Corporate Auditor complied with the auditing standards of the Corporate Auditors established by the Board of Corporate Auditors, followed the auditing policies, allocation of duties, and other relevant matters, communicated with the Directors, internal control development division, Auditing Department (internal audit dept.) and other employees, and any other relevant personnel, as well as making efforts to prepare the environment for information collection and audit, and conducted an audit by the following methods.

- i) Participated in meetings of the Board of Directors and other important meetings, received reports from the Directors, Executive Officers, employees, and other relevant personnel regarding performance of their duties, sought explanations as necessary, examined important authorized documents and associated information, and studied the operations and financial positions at the head office and principal business offices.
As for subsidiaries, each Corporate Auditor communicated and exchanged information with Directors, Corporate Auditors, and other relevant personnel of the subsidiaries, and received business reports from subsidiaries as necessary.
- ii) Received reports from the Directors, employees, and other relevant personnel regarding the structure and operation status of the system for ensuring that the performance of duties by the Directors, described in the Business Report, conforms to the related laws and regulations and Articles of Incorporation, and the system prepared based on the contents of the resolutions of the Board of Directors and such resolutions regarding preparation of the system stipulated in Article 100, Paragraphs 1 and 3, of the Ordinance for Enforcement of the Companies Act (internal control system), which system is necessary for ensuring that a joint stock corporation's business is proper, and sought explanations as necessary.
Furthermore, with respect to internal controls on financial reporting under the Financial Instruments and Exchange Act, each Corporate Auditor received reports from the Directors and other relevant personnel as well as KPMG AZSA LLC regarding the assessment of the internal controls concerned and the status of auditing thereof, and sought explanations as necessary.
- iii) Audited whether the Accounting Auditor maintained their independence and implemented appropriate audits, as well as received reports from the Accounting Auditor regarding the performance of their duties and sought explanations as necessary. Also, each Corporate Auditor received notice from the Accounting Auditor that "the system for ensuring that duties are performed properly" (matters set forth in each item of Article 131 of the Ordinance for Corporate Accounting) has been prepared in accordance with the Product Quality Management Standards Regarding Audits (issued by the Business Accounting Deliberation Council (BACD) on October 28, 2005) and other relevant standards, and sought explanations as necessary.

Based on the above methods, we examined the Business Report and other relevant documents, the non-consolidated financial statements (non-consolidated balance sheet, non-consolidated statement of

income, non-consolidated statement of changes in net assets, and non-consolidated notes) and their annexed specifications, as well as consolidated financial statements (consolidated balance sheet, consolidated statement of income, consolidated statement of changes in net assets, and consolidated notes) related to the relevant fiscal year.

2. Results of Audit

(1) Results of Audit of Business Report and Other Relevant Documents

- (i) In our opinion, the business report and the supplementary schedules are in accordance with the related laws and regulations and Articles of Incorporation, and fairly represent the Company's condition.
- (ii) We have found no evidence of wrongful action or material violation of related laws and regulations, nor of any violation with respect to the Articles of Incorporation, related to performance of duties by the Directors.
- (iii) In our opinion, the contents of the resolutions of the Board of Directors related to the internal controls system are fair and reasonable. In addition, we have found no matters on which to remark regarding the information contained in this Business Report and the performance of duties by the Directors related to such internal controls system. In addition, with respect to internal controls over financial reporting, at the time of preparation of this audit report, we received report from the directors and other relevant personnel that states that the said controls were effective, and also received report from KPMG AZSA LLC that states that no material weakness in the said controls.

(2) Results of Audit of Non-consolidated Financial Statements and Supplementary Schedules

In our opinion, the methods and results employed and rendered by KPMG AZSA LLC are fair and reasonable.

(3) Results of Audit of Consolidated Financial Statements

In our opinion, the methods and results employed and rendered by KPMG AZSA LLC are fair and reasonable.
