

Delivering solutions for an ever-changing society

—Promotion of Group Vision 2030—

Utilizing the technology and knowledge nurtured since our founding, from now on also we will create new solutions required by society by keeping one step ahead of the times and transforming ourselves.

High-pressure hydrogen regulator

The hinotori™ surgical robot system from Medicaoid Corporation

K-RACER unmanned VTOL (vertical take-off and landing) aircraft

Hydrogen engine motorcycle

Hydrogen-powered aircraft

Hydrogen-powered train

A safe and secure remotely connected society

Q. What is the remotely connected society in which everyone can live safely and securely?

For more details, refer to pp. 55-56.

Near-future mobility

Q. What is the desirable form of near-future mobility?

For more details, refer to pp. 57-58.

Energy and environmental solutions

Q. What are the solutions for improving the energy and environmental load?

For more details, refer to pp. 43-54.

The mapxus Driven by Kawasaki™ indoor mapping service

FORRO indoor delivery robot

Z-Leg™ helicopter arrangement service

Hydrogen gas turbine

Large liquefied hydrogen tank (200,000 m³ class)

Large DAC system directly capturing CO2 from the air

Large liquefied hydrogen carrier
